

Marketing Campaign ROI Analysis

Executive Performance & Portfolio Business Report | 2025 Annual Review

1. Executive Summary

This report presents a quantitative evaluation of marketing campaign performance across 8 major channels and 16 active campaigns during 2025. Across a total portfolio ad spend of **\$8,202,708.75**, the marketing organization generated **\$129,938,821.72** in revenue, achieving an overall Return on Ad Spend (ROAS) of **15.84x** and a Net Portfolio ROI of **1484.10%**. A total of **319,260** new customers were acquired at a portfolio Customer Acquisition Cost (CAC) of **\$25.69**.

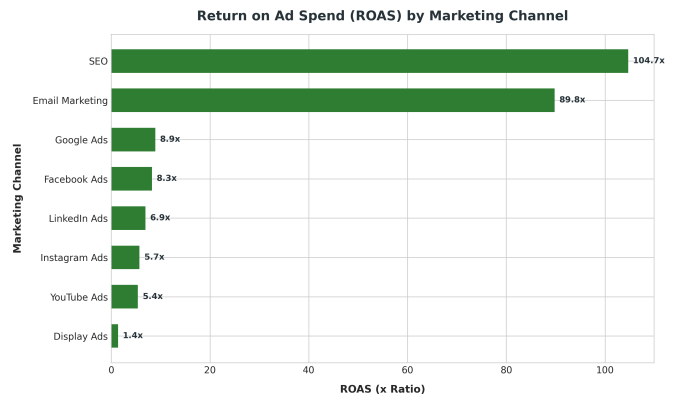

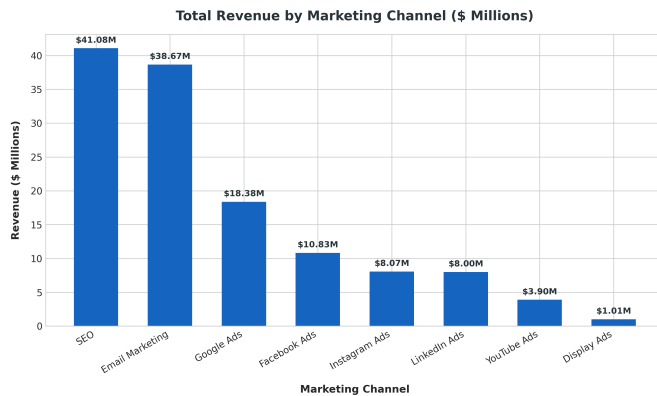

2. Key Performance Indicators (KPI Summary)

Metric	Total / Average Value	Benchmark / Target
Total Ad Spend	\$8,202,708.75	Budget Cap: \$8.50M
Total Revenue	\$129,938,821.72	Target: \$100.0M+
Total Customers Acquired	319,260	Target: 250,000+
Portfolio ROAS	15.84x	Target: > 4.00x
Net Portfolio ROI	1484.10%	Target: > 300%
Customer Acquisition Cost (CAC)	\$25.69	Target: < \$35.00
Conversion Rate	10.55%	Target: > 8.00%

3. Marketing Channel Performance Breakdown

Channel	Ad Spend (\$)	Revenue (\$)	Conv Rate (%)	CAC (\$)	ROAS (x)
SEO	\$392,405.30	\$41,080,559.97	12.46%	\$4.25	104.69x
Email Marketing	\$430,646.34	\$38,674,035.89	16.92%	\$4.03	89.80x
Google Ads	\$2,056,606.20	\$18,379,019.24	10.91%	\$44.30	8.94x
Facebook Ads	\$1,310,472.42	\$10,833,222.76	8.47%	\$43.32	8.27x
Instagram Ads	\$1,412,825.49	\$8,068,018.32	7.41%	\$61.46	5.71x
LinkedIn Ads	\$1,153,256.09	\$8,001,631.18	9.98%	\$166.56	6.94x
YouTube Ads	\$720,636.32	\$3,895,463.74	4.92%	\$67.86	5.41x
Display Ads	\$725,860.59	\$1,006,870.62	2.60%	\$258.59	1.39x

4. Key Visualizations

5. Data-Driven Key Findings

- Highest Revenue Generator: 'SEO' generated the highest revenue (\$41,080,559.97), representing 31.6% of total portfolio revenue.
- Highest Efficiency (ROAS): 'SEO' delivered the highest Return on Ad Spend (104.69x) with a very low CAC of \$4.25.
- Lowest CAC Channel: 'Email Marketing' acquired customers at the lowest cost (\$4.03 per customer).
- Highest Conversion Rate Channel: 'Email Marketing' achieved a lead-to-conversion efficiency of 16.92%.
- Highest Ad Spend Concentration: 'Google Ads' absorbed \$2,056,606.20 (25.1% of total ad spend).
- ATTENTION REQUIRED: 'Google Ads' exhibits inefficiency — high CAC of \$44.30 and below-average ROAS of 8.94x despite high spend (\$2,056,606.20).
- ATTENTION REQUIRED: 'Facebook Ads' exhibits inefficiency — high CAC of \$43.32 and below-average ROAS of 8.27x despite high spend (\$1,310,472.42).
- ATTENTION REQUIRED: 'Instagram Ads' exhibits inefficiency — high CAC of \$61.46 and below-average ROAS of 5.71x despite high spend (\$1,412,825.49).
- ATTENTION REQUIRED: 'LinkedIn Ads' exhibits inefficiency — high CAC of \$166.56 and below-average ROAS of 6.94x despite high spend (\$1,153,256.09).
- ATTENTION REQUIRED: 'YouTube Ads' exhibits inefficiency — high CAC of \$67.86 and below-average ROAS of 5.41x despite high spend (\$720,636.32).
- ATTENTION REQUIRED: 'Display Ads' exhibits inefficiency — high CAC of \$258.59 and below-average ROAS of 1.39x despite high spend (\$725,860.59).
- Star Campaign: 'SEO_High_Intent_Landing' (SEO) generated an outstanding ROAS of 105.88x and ROI of 10488.43%.
- High Acquisition Cost Warning: Campaigns [Google_Search_Brand, Google_NonBrand_Generic, FB_Lookalike_Propecting] have CACs significantly higher than average (>1.5x portfolio average). These require audience targeting refinement or landing page optimization.
- High Volume / Low Margin Anomaly: Campaign 'Google_Search_Brand' converts users effectively (11.06% CR), but generates comparatively low ROAS (9.08x) due to low order value or high ad costs.

6. Business Recommendations

- 1. Scalability Opportunity: Scale budget allocation for top-performing organic & low-CAC channels ('SEO' and 'Email Marketing'), as they yield ROAS > 104.7x with minimal incremental acquisition cost.
- 2. Budget Reallocation: Reallocate 15-25% of advertising budget away from 'Google Ads' (CAC: \$44.30) to high-converting paid search & social retargeting campaigns.

- 3. Conversion & Pricing Optimization: For high-conversion / low-ROAS campaigns, test upselling, cross-selling, or increasing price points to boost Average Order Value (AOV).
- 4. B2B & Retargeting Focus: Maintain strict bid caps on LinkedIn Ads and Display Ads to prevent runaway CPCs while improving lead lead-nurturing workflows.
